

# Gratis

## New System Installed

We have recently invested in a on line system called Gratis that helps us manage our enquiries more efficiently and accurately.

We can now present our colour proposals with more detail, more photographs, and detail all costs and savings so that **your** event planning becomes smoother, easier and even more efficient.

The system is designed so that you can compare each venue we source for you viably and accurately.

We continue to use our agency buying power to get the best rates but we can now show you these in a percentage on each venue we provisionally book on your behalf.

**Give it a try – it's free.**
